Become a Tool Manager with VOC

VOC projects require a variety of tools and equipment to be successful. Every major project has a Tool Manager and Assistant Tool Manager who plan and manage the tool requirements.

As a Tool Manager, you will work with the VOC Project Team to determine which project equipment and tools are required. You will ensure tools, project supplies, and Crew Chef equipment are transported to the project site, and that volunteer crews have proper and operable equipment.

Since 1984, VOC has engaged more than 115,000 people to get involved in and become inspired to care for Colorado – a total donated labor value of nearly \$23 million.

You may be interested in becoming a Crew Leader, Crew Chef, or a variety of other leadership positions available with VOC through additional training. Learn more at voc.org/vocleadership or contact Dan Williams at 303-715-1010 ext. 117 or dan@voc.org.
